

## TPG Telecom offers free calls to customers connecting with loved ones in Ukraine

**4 March 2022** –TPG Telecom is offering free standard international mobile phone calls from Australia to Ukraine to help reconnect families and loved ones in light of recent events unfolding in the country.

From Friday 4 March, free mobile voice calls to Ukraine will apply to postpaid and active prepaid customers across the TPG Telecom family of brands, including Vodafone, TPG, iiNet, Internode, Lebara, felix, Westnet and Kogan. Upon commencement, the free calls will continue until further announcement.

While most communications in and out of Ukraine remain intact, potential infrastructure damage could impact call quality and service. If customers experience any issues connecting to Ukraine, they may need to retry calling to successfully connect.

A small number of customers within the TPG, iiNet, Internode and Westnet brands may still see charges related to Ukraine calls during this time, in which case, TPG Telecom invites them to please contact their service provider for a full credit.
